

Celebrating Dr. Sayegh's 10th Year of Service

As Dr. Sayegh and staff look back on their 10th year of service, they see the journey as rewarding. They have since added more services to their office, along with the increase in size. Dr. Sayegh has been successful in his mission to become a complete service dentist. He is the surgeon who places the dental implants, and the artist who restores these implants with the highest quality of restorations. These prosthetics are custom to fit everyone's needs and indications. He is now one of the very few qualified, trained prosthodontists to do that in this area. "Any dentist can perform cosmetic and implant dentistry, but only the prosthodontist is approved as a specialist by the American Dental Association," stated Dr. Sayegh. They have just updated two of their operatories, which has enabled them to accommodate more efficiently for any emergencies and light procedures. At this time, Dr. Sayegh is still in search for a qualified associate to join his practice in order to provide more coverage and to facilitate for new patients. In celebration of their 10th anniversary, Dr. Sayegh would like to share his joy with everyone by having a non traditional celebration at the AMC Theatre in the Glendora Market Place on Saturday, February 21st at 10:30 AM. He will start with a power point presentation for approximately 30 minutes which will be followed by a light lunch and, for no fee, the new Pink Panther movie starring Steve Martin. Dr. Sayegh will take care of the cost for the movie, so reservations are required. This event is limited to their patients of record or by invitation only. If you are interested in joining the practice, you may be eligible for this event by establishing a record with them as a new patient. The deadline to sign up will be February 14, 2009, so please call Dr. Sayegh and his staff at (626) 963-7581.
